

Welcome to this month's newsletter, regarding the progress being made on the construction of the Mildenhall Hub, a major national project to deliver a better school, improved leisure facilities, and integrated community and public services.

The multi-million pound project will create modern accessible services to people living in and around the town, and from the surrounding area, and includes a new school, children's centre, new leisure facilities, a health centre, facilities for Suffolk Police, West Suffolk Council and Suffolk County Council, as well as a library, job centre and Citizen's Advice centre.

HAPPY NEW YEAR!

CONSTRUCTION PROGRESS

The superstructure envelope is progressing well with Drayton Windows and A2O Facades installing up to 60% overall to date.

The roof is progressing in-line with the programme to Zone 4 (The Academy) opening up large areas for following trades.

The swimming pools have now formed allowing the envelope to progress to the leisure area (zone 1).

Internally the blockwork, drylining and Mechanical and Electrical module first fix has commenced.

NEXT STEPS

Works will continue to the roof elements of the building across all of the zones, which will allow the building to be made watertight. We will also be installing the two swimming pools over the coming weeks, which will advance progress in zone 1. Progress will also continue on the mechanical and electrical works internally. Rainscreen cladding works will commence to the east elevation which will transform the look of the building.

SOCIAL VALUE

In December, our Hub Management Trainees got in the Christmas Spirit by giving away mince pies to some of the sub-contractors that are working hard on the site.
